AT RF20M MultiBand Mobile Package

Package consists of AT RF20 ECCM handheld transceiver, AT MA1302 vehicle accessory and other accessories. The package is designed to be used in wheeled vehicles and with an external antenna located on the vehicle hood. The mobile package enables power supply from 12 V or 27 V on-board mains. AT RF20 transceiver with improved resistance to electronic warfare is designated for use at the lowest tactical command levels for all kinds of military units. Depending on the type of selected frequency band, the transceiver is able to communicate with transceivers operating in SW band with frequency modulation of AT R150 radio system, AT RF13 and AT RF20 VHF transceivers, and with airborne transceivers in Aircraft band I. MA1302 vehicle accessory supplies AT RF20 transceiver and charges its battery pack.
