

Evidence of packet cluster use in the case on monoband HP operations in CQWW CW 2008 by RX4HZ, UX2X, UW5U, YU1LA, S57AL and YU2A. Several worked busted packet spots prove them all 100% guilty.

80M

RX4HZ - 7 busted spots worked! This guy is complete disgrace to contesting. He only jumps around and works as many spots as possible in most of the contest. Absolutely unreal. What is he thinking I don't know. But he is also known DXCC cheater of course.

LN30=LN50, worked 19 minutes after busted spot
